

Concept Systems Inc. Receives AREVA Seal of Approval

World nuclear power expert acknowledges Concept's technical and business competence.

Albany, OR – June 29, 2009 – Concept Systems Inc. today announced that the company has been recognized as an AREVA Certified Supplier.

The AREVA Group, headquartered in Paris, France, is a world leader in developing nuclear power generation systems. The company is committed to CO2-free power generation and distribution systems that are cleaner, safer and more economic than other means. The company recognizes other firms that have been instrumental in helping them achieve that focus. AREVA's newest certified suppliers were recognized at a presentation on June 4, 2009 in Washington, DC.

"The AREVA Certified Supplier award acknowledges our dedication and contribution to the nuclear energy market in the United States and world-wide", said Ed Diehl, Concept Systems Principal. "We are honored to be part of the AREVA team. Being recognized as a Certified Supplier means that Concept Systems has met a series of twenty-five criteria pertaining to quality, sustainable development values and competitiveness in its industry. It also confirms our investment in innovation and R&D, and our attention to safety and the environment – values that we at Concept Systems consider to be paramount."
