

BOARDMARK

BoardMark—DP™

Printed directly on the end-of-board on natural blond wood or an optional UV curable ink for darker woods. No labels or staples are required, which reduces costs and waste.

BoardMark, the Latest in Lumber Barcode Technology

HIGHLIGHTS:

- No Labels and No Staples!
- High Readability Rates
- Reduces Labor & Personal Safety Issues
- Weather Resistant
- Reliable and Low-maintenance Solution
- Accepted by Major Retail Chain
- Flexible Install with Two Versions:
 - End-of-line: Barcode printed on the package after the stacker (one minute per load)
 - In-line: Barcode printed at the trimmer outfeed (up to 200 boards per minute)

BoardMark has been developed in partnership with GradeTech Systems
