

FOR IMMEDIATE RELEASE

Concept Systems Inc. Opens Rocky Mountain Regional Office

Fast-growing systems integrator opens office in Casper, Wyoming to tackle energy production and process control projects.

Albany, OR – October 1, 2008 - Concept Systems, Control Engineering Magazine's 2007 System Integrator of the Year, today announced that it has opened a regional office in Casper, Wyoming to serve customers in the mining, oil and gas production industries in Montana, the Dakotas, Colorado and Wyoming. The opening of this regional office follows the opening of Concept Systems' Seattle, Washington, office in 2006.

Account Manager Kevin Short, a veteran of over 29 years in the automation industry, will direct customer support activities from the new Concept Systems office. Concept Systems plans to add Engineers at the new location throughout 2009. Among the clients being served from this location is the Powder River Coal company of Gillette, Wyoming, the second largest coal producing company in the United States.

About Concept Systems Inc.

Founded in 1999 and based in Albany, Oregon with offices in Seattle, Washington, and Casper, Wyoming, Concept Systems Inc. provides automation services by taking advantage of the latest in proven technologies. These technologies include: process control, PLC/HMI controls, motion control (PLC-based, robotics, and CNC), vision inspection/laser scanning, database applications, and custom PC applications. Concept Systems serves customers in the following industries: forest products, converting, food processing, aerospace, automotive, mining, oil and gas, pulp and paper, communication equipment, entertainment, packaging, and others.

Recognized as a 2007 System Integrator of the Year by Control Engineering magazine, Concept Systems is a CSIA (Control System Integrators Association) Certified Member. The company is also a certified Rockwell Automation Solution Provider, a Siemens Solution Partner and a UL 508A and 698A certified panel shop.
